A product recently

ordered arrived damaged.

I'm sorry, I'd be happy to get you a prompt refund.

Claude ensures speedy and friendly resolution to customer service requests, saving costs and increasing customer satisfaction. Claude can also be taught when to hand off tasks to a human CSR, enabling your team to focus on the most complex challenges.

Build with Claude's skills

Claude's skills can be combined to simplify even the most complex tasks

Process mountains of text

Whether you're dealing with documents, emails, FAQs, chat transcripts, records, or something else, Claude is here to help. Claude can edit, rewrite, summarize, classify, extract structured data, do Q&A based on the content, and more.

Have natural conversations

Claude can take on a variety of roles in a dialogue. Provide details on the role and an FAQ for common questions, and Claude will engage in relevant, naturalistic back-and-forth conversation.

Get answers

Claude has extensive general knowledge honed from its vast training corpus, with detailed background on technical, scientific, and cultural knowledge. Claude can speak a variety of common languages, as well as programming languages.

Automate workflows

Claude can handle a variety of basic instructions and logical scenarios, including formatting outputs as desired, following if-then statements, and making a series of logical evaluations in a single prompt.

FAQs

Is Claude secure with my enterprise data?   +

Where can I see your model card?   +

How does the API work?   +

What versions of Claude are available?   +

What is your pricing?   +

What languages does Claude support?   +

Can Claude access the internet?   —

No. Claude is designed to be self-contained, and will respond without searching the internet. You can, however, provide Claude with text from the internet and ask it to perform tasks with that content.

What does constitutional training do?   +

What does "HHH" mean?   +

How do you further customize Claude's behavior?   +

Can Claude models be finetuned?   +

How long is Claude's context window?   +

Can Claude do embeddings?   +
